

(Sin)ful is the first in a four-part, fantasy fiction saga. It follows the rises and falls of aristocratic, tortured Elemental Animay Wolfwood and young, arrogant Kaisaki, Luicius Dranco as their lives are manipulated by a vicious, sadistic wizard with anything but their best wishes at heart. Its a race against time and each other as they try and figure out where they stand amidst a storm of lies and half-truths. An intelligent, well crafted first book. I found it difficult to put down. -Dan Breen, The Written Universe.
