

Second title of a classic trilogy now in audio! The Kinslayer Wars, the second title in The Elven Nations trilogy, was first released in mass-market format in 1991, and it documented the ancient civil war of the elven races in the Dragonlance world. Unavailable for the past several years, this title is now being brought into audio in order to fulfill the rising demands of consumers. The other two titles in this trilogy will also be re-released in the same season so that listeners may easily compile the entire trilogy.
